c. Recruitment

(1) Professional Personnel

(a) Full clearance was received on one Logistics Officer Trainee we had in process. He has advised that he will complete his military service on 8 April and will enter on duty with us on 22 April 1963. An interview with one applicant, on whom invitee clearance was received, was successful; and processing of his appointment is being continued. Another applicant, fully cleared, has advised that he will not be able to give us an EOD date for another six weeks. Two other applicants have resulted in Panel (Personnel-Security-Medical) Cases: one has been disqualified for Agency employment, and the other is being held in abeyance pending further review by the Office of Security and Medical Staff.

As a result of a survey made of the number of summer employees required by OL components during the coming summer, it was determined that OL could use the services of approximately 55 such employees if they are available this year. The Office of Personnel has during the past couple of months dispatched several recruiters to various high schools in the neighboring area in order to recruit stenographic, typist, courier and clerical applicants from this year's graduating classes. The shortage of sufficient clerical employees in the Agency is expected to continue until the condition is relieved when these recruits report for duty after their graduation in June. Bindery Operatives and Laborers are being recruited through USES offices and vocational departments of some of the local high schools. The Office of Personnel is also placing an ad in the local newspaper on 3 March 1963 in an attempt to locate some additional telephone operators.
